HOME ALONE

Learn what you should know about staying Home Alone

This course is designed for 9 and 10 year olds to help prepare them to deal with unforeseen emergencies and staying safe in times where they may find themselves alone for short periods of time. Youth who are well prepared for the unexpected will more confidently handle an emergency and be safer as a result. Participants learn how to deal with phone calls, visitors, recognize hazards and follow home safety procedures, first aid basics, healthy eating, fire safety and how and when to use 911 to obtain emergency help. This program is a more comprehensive version of the Home Alone program published by the Canada Safety Council.

A child under 10 should not be left alone. Although they may have taken the Home Alone course, a child under 10 just does not have the ability to make judgement you can count on.
